October 2025

Dear Readers,

For the moment and definitely I hope, unlike our site <https://www.math-art.eu>, the site <http://www.math-art.cn> is inaccessible, does not exist. This introduction follows this first email of August 27, 2025 :

To whom it concerns,
We are the company who submitted the application to register math-art as Chinese domain name and internet keyword. We plan to register the Chinese domain names "math-art.cn" "math-art.com.cn" "math-art.net.cn" "math-art.org.cn" and internet keyword "math-art" and have submitted our application. We are waiting for Mr. Steve Liu's approval. These CN domains and internet keyword are very important for us to grow our business in China. Despite Mr. Steve Liu recommended us to choose a different name, we will persist with this name.

Kind regards
Changsong Ning

Chers Lecteurs,

Pour l'instant et définitivement j'espère, au contraire de notre site <https://www.math-art.eu>, le site <http://www.math-art.cn> est inaccessible, n'existe pas. Cette introduction fait suite à ce premier mail du 27 Août 2025 :

To whom it concerns,
We are the company who submitted the application to register math-art as Chinese domain name and internet keyword. We plan to register the Chinese domain names "math-art.cn" "math-art.com.cn" "math-art.net.cn" "math-art.org.cn" and internet keyword "math-art" and have submitted our application. We are waiting for Mr. Steve Liu's approval. These CN domains and internet keyword are very important for us to grow our business in China. Despite Mr. Steve Liu recommended us to choose a different name, we will persist with this name.

Kind regards
Changsong Ning

I am pleased to thank Mr. Steve Liu, to whom the author of this email refers. He is one of the managers of the Chinese company <http://domainregistry.cn>. He kindly contacted me, informing me that he had advised his correspondents (apparently working for Baokang Group Co., Ltd. produces and sells plastic packaging containers and tool products for food) against pursuing their project.

I naturally refused to allow math-art to be, in a way, kidnapped.

Despite his physical difficulties, Patrice Jeener continues his fine work as an engraver. Below are three recent, luminous engravings that could also inspire stained-glass artists.

This summer I was fortunate enough to attend sights I don't remember ever encountering. Perhaps they could inspire specialists not only in computer color, but also, and simultaneously, in the fractal world and hydrodynamics.

May these fascinating clouds make us forget for a while those that stupidity and blindness make float above our heads.

Sincerely,
Claude

J'ai le plaisir ici de remercier Mr Steve Liu, auquel l'auteur de ce mail fait référence. Il est l'un des responsables de la société chinoise <http://domainregistry.cn>. Il a eu l'amabilité de prendre contact avec moi, m'informant avoir déconseillé ses correspondants (apparemment travaillant auprès de Baokang Group Co., Ltd. produces and sells plastic packaging containers and tool products for food) de poursuivre leur démarche.

J'ai naturellement refusé que math-art soit ainsi, en quelque sorte, kidnappé.

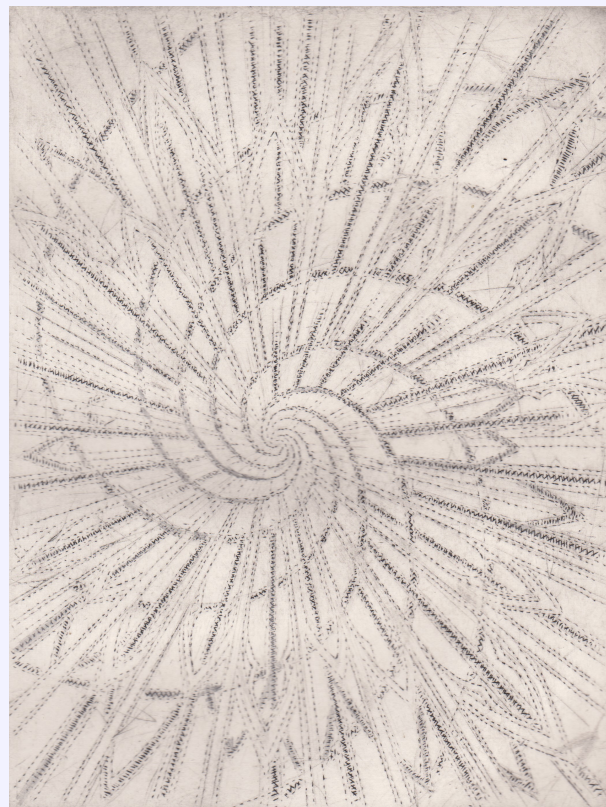

En dépit de ses difficultés physiques, Patrice Jeener poursuit sa belle œuvre de graveur. Ci-après trois gravures récentes, lumineuses, qui pourraient également inspirer les vitraillistes.

J'ai eu la chance cet été d'assister à des spectacles que je ne me souviens pas d'avoir jamais rencontré. Peut-être pourraient-ils inspirer des spécialistes, non seulement de la couleur par ordinateur, mais également et simultanément de l'univers fractal et d'hydrodynamique.

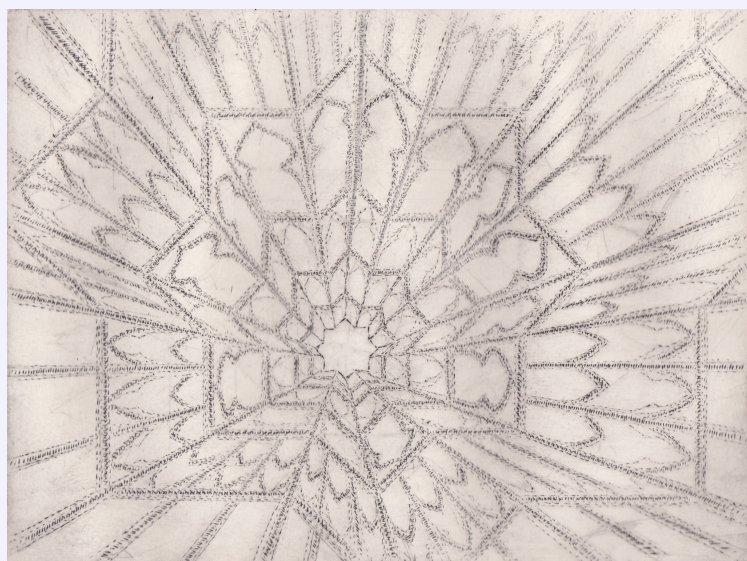

Puissent ces nuages fascinants nous faire oublier un bon moment ceux que la bêtise et l'aveuglement font flotter au-dessus de nos têtes.

Bien cordialement,
Claude

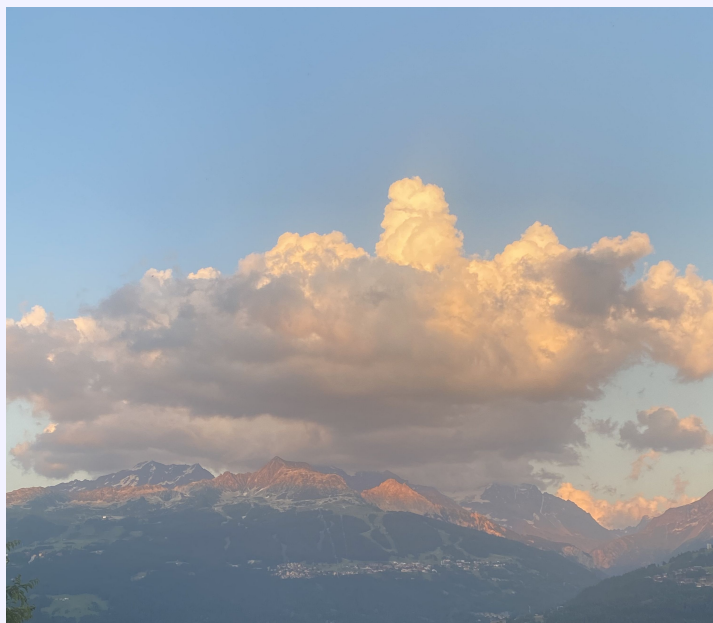

Patrice Jeener, Summer 2025
